USGBC-LI is a 501(c)3 non-profit organization.
Contributions are tax deductible.
The U.S. Green Building Council is the nation’s premier coalition of leaders from every sector of the building industry working to promote building practices that are environmentally responsible, profitable, and conducive to healthy living and working.

The USGBC’s mission is to transform the way buildings and communities are designed, built, and operated, to improve the quality of life for all, and to enable the development of a socially responsible, healthy, and prosperous environment.

USGBC-LI works to bring these values to the communities of Long Island. The chapter offers educational and outreach programs to local municipalities and code officials, while providing local contractors, engineers, and other building industry professionals with the resources they need to incorporate green practices into their projects and work toward LEED certification.

Build Green, Everyone Profits
