The U.S. Green Building Council
is the nation’s foremost coalition of leaders from every sector of the building industry working to promote buildings that are environmentally responsible, profitable and healthy places to live and work.

USGBC’s core purpose is to transform the way buildings and communities are designed, built and operated, enabling an environmentally and socially responsible, healthy, and prosperous environment that improves the quality of life.

USGBC-LI works to bring these values to the communities of Long Island. The chapter provides educational and outreach programs, reaching local municipalities and code officials while providing local contractors, engineers, and other building industry professionals with the resources they need to incorporate green practices in their projects and work toward LEED certification.

Build Green, Everyone Profits
